## WBC Printing Companies

The church has accounts setup with several different printing companies by trying to find the best price available depending on your deadline. In the past we have used the two companies below the most. If you know of some other company that is more competitive, please feel free to let us know. The church may already have an account with them, if not we will setup one. Once you are satisfied reach out to MarCom and we can help you with printing needs.

- **Print Noise** - We use this company more frequently than others because they tend to be less expensive. However, the copies must be shipped to the church for an additional charge or someone must pick them up in Richardson, Texas. Please see their website to review their pricing for printing different items based on number of copies and days needed.  
[www.printnoise.com](http://www.printnoise.com).
- **Minuteman Press** - We use this company when you need printing within 3 business days. They cost a little more, but they are convenient when you have a rush order, they are located in Lewisville. They do not have a website of pricing like Print Noise. The website only consists of what they do.  
<https://www.lewisville.minutemanpress.com/>. You must get with the MarCom Quarterly lead to get you a quote every time you need something printed.
