

The Department of Homeland Security (DHS) is Hiring

The Department's compelling mission to make a difference in the lives of our fellow citizens encourages our workforce and draws candidates seeking to join our team. The threats and challenges facing the Department and the nation are complex and constantly evolving. Now more than ever, DHS must recruit, develop, and retain a talented and diverse workforce.

As part of this commitment, DHS is seeking qualified individuals to fill mission-critical and mission support positions in: law enforcement, business operations, mission support, immigration, travel security, prevention and response, cyber, information technology, engineering, intelligence, emergency management, and many more.

Over the next several weeks, we will host webinars for potential and current applicants to provide information on DHS career opportunities, direct hire authorities, veterans' preference and other hiring authorities for veterans, effective resume writing, how to create a profile on USAJOBS, and how to make a resume searchable.

If you know of someone who is interested in a rewarding career with the Department, please encourage them to participate in one of the below webinars for more information.

Dates	Time	Target Audience (but open to all)
